

SESSION – 2019 (TOTAL 12 TESTS)

**ORIENTATION CLASS FOR REGULAR CLASS STUDENTS & TEST SERIES
STUDENTS WILL BE ORGANIZED ON 6th OCT. 2019 AT 3 PM
AT OLD RAJINDER**

Analysis of previous years' questions and the current trend of Sociology paper I and paper II

You must have noticed a marked shift in the pattern of questions from 2012 when UPSC switched over to one optional only.

One thing which became popular with sociology questions was the comparative questions. Now comparative questions have become regular.

- 1) In the first paper i.e. principles of sociology, very often they are giving questions from Indian society. Now it is a regular feature.
- 2) In the theory section or sociological theories, they are asking applied questions i.e. apply Merton's theory of deviance in explaining Indian traffic violations, can Parsonian concept of social system be applied to the study of Indian society?
- 3) Regarding Indian society questions, there are no boundaries. They can ask any thing. There is no reference to Indian reformers in the syllabus but now it has become a regular practice to ask questions from Gandhi, Phule and Ambedkar. Therefore, we may expect questions from Narayan Guru and Periyar in coming examinations.
- 4) Second paper can have any question from social issues and social problems. These social issue questions may include recent social legislations like the Indian forest rights act, child labour amendment act. They may include Indian rural mission, Swachha Bharat Abhiyan etc.
- 5) In the first paper or principles of sociology never give examples from books, western society or even other developing societies. Always give examples from Indian society. These should not be your personal or family experience, always give examples from public sphere. Those incidents which have been reported in the newspapers or electronic media.
- 6) In the Indian society questions write with a theoretical perspective on social issue and social legislation sections. These theories can be Marxism, Weberian, Functionalism and Interaction theory. It is always easier to apply the interaction or symbolic interaction theory.
- 7) In the second paper questions you must give case studies. It is better to give recent case studies. You can collect them from the journal Economic and Political weekly (EPW).
- 8) Always keep in mind the theoretical perspective. There are only four perspectives namely the Marxian, Weberian, the Functional and the interaction theory. Remember nothing in sociology is outside the purview of sociological theory.

Test 10	Mock Test I Paper II (2 pm-5 pm)	16 FEB. 2019
Discussion of both the Mock Tests on 9 MARCH, 2019 from 10 AM to 1 PM - 2 PM to 5 PM		

⌚ Timings of Test: 10 am – 1pm

⌚ Timings of Discussion: 2 pm – 5pm

UNDERSTANDING TERMINOLOGIES USED IN QUESTIONS

It is the pre-fix or suffix of the question which determines direction and command of the answer. It is for your convenience, we are trying to make explicit what is meant by these words and what you will write.

Terminology	Meaning and demand
Discuss	In discuss you have to write two or all the aspects of an issue. Don't criticize, simply present all the sides in an analytical manner. As the conclusion you write a brief summary of all the sides.
Critically Discuss	Critically discuss again has to aspects. In discuss one writes two aspects or all aspects of an issue or the problem. Discuss is an elaboration in which all the aspects of a problem, issue and a phenomenon are to be presented. Critically discuss is a popular command. Critically discuss indicate, one has to present all the aspects by examining its pros and cons. One does not only present all aspects but evaluate the different aspects. Critically discuss refers to examine either two aspects or aspects by examining aspects. One has to give the plus points and minus points of a phenomenon. For example one has to critically discuss the Gandhian view of nonviolence. In this one has to see the plus points of nonviolence and one must give the example of India's national struggle. Then one has to severely criticize the concept of non violence and cite all the negative aspects of nonviolence.
Explain	It is also a common directive. You write the meaning of the problem, all aspects involved in it. You simply try to write all the why which may emerge in the problem. We can give an example; Why smart city programme, this has to be written in 'explain smart city. Explain is the answer to all 'why'. It touches and explores all aspects. Explanations require you to write the context of the question. You explain or convince by providing this context. In simple terms you write all aspects without any criticism and your opinion.
critically examine, examine and evaluate	These all indicate the same meaning. You first write after two lines of introduction, a brief statement of what the idea or presentation is. Only then you evaluate, criticize or examine. Examine does not mean only a rejection of the idea it also mean support and praise. In such questions you do not criticize on your own. You are not eligible to criticize as scholars. Criticize on the basis of scholar's views. In nutshell, you should demolish the proposition.
Comment	Generally this is presented at the end of the question and so it is called suffix. In comment, you write the different aspects of a problem or issue or the topic in an analytical manner and you also give your opinion. In comment the whole problem or issue is presented and different aspects and different views are presented related to the issue or the problem. No criticisms are to be attempted. Criticism is the view of a scholar and comment is your view.
Critically Comment	Critically comment is a double evaluation in simple terms. In comment one has to give one's view on any particular issue. In comment one has the liberty to make any comments showing the for or against views. The comment is not baseless. It requires you to do a general perusal and then you comment. This general perusal is also a type of evaluation. Critically comment requires you to show all the aspects with an evaluation which is systematic and on concrete grounds. One has to

	<p>meticulously see one by one all issues issue. The evaluation is on certain criteria. This evaluation must indicate the merits and demerits of the given topic or problem.</p> <p>Critically comment therefore, indicate to comment after evaluation in a systematic way. Comment is the view of some body in a deliberate manner but when it is critically comment then the view has to be given after systematic evaluation. For example, if one has to comment on the question of nationalism, one can simply say nationalism is sacrosanct and nobody should be allowed say anything against it. The other non critical comment can be nationalism has many bases and there can be different views on it.</p> <p>Critically comment has to go by an evaluation of the principle of nationalism and then one takes a position. One has to evaluate both the consequences of nationalism and also the positive effects of nationalism.</p>
Analyse	<p>It is also a very frequent directive. You simply remember one analogy. As the medical students dissect insects or human organs in their laboratories so you analyse a problem. You go deeper, you want to see the inner meanings.</p>
Critically Analyse	<p>We have already presented the meaning of analyze. One has to dissect any phenomenon trying to go deeper and present the causes of any phenomenon. This requires one to go inside any phenomenon and do the drain searching. Critically analyze means one is an intense drain inspector. One does not only show the underlying causes of a phenomenon but show all other dimensions.</p> <p>Critically analyze requires any one to show the underlying causes but also the plus and minus of any cause. This refers to seeing and imagining all the interrelated aspects of the causes. This is in-depth and analyzes underlying and interrelated causes. For example one has to critically analyze the problem of black money in India. One has to write the sources of black money, the causes of black money, why it is difficult to identify black money, how other countries like USA have done this. Critically analyze does not mean you have to more rather deeper causes in very brief.</p>
Describe	<p>It is the simplest directive. Describe is the description of a phenomenon or a simple statement of facts. In describe neither you criticize nor you analyse. You directly write about the apparent features. You write in straight way the features.</p>
Illustrate, Elucidate, Enumerate and Elaborate	<p>They are almost identical terms. Normally in central services examinations `describe` is not given but other queries are there. In all these cases you state the facts or arguments in a straight forward manner. No criticisms should be attempted. Detailed description is required.</p>
Distinguish	<p>It indicates a directive when you have to write the differences between two or more phenomenon. You distinguish all aspects.</p>
Compare	<p>It is a directive in which you first, in very brief present the meanings of the phenomena you are to compare. Then you write the differences as well as similarities of the two. In the conclusion when you are summarizing write what are more, the similarities or the differences.</p>
Substantiate	<p>It means you have to prove a particular proposition. You give only positive aspects. You present your arguments as a lawyer. You convince the examiner.</p>

ED CLASSES

...Go Beyond only News Papers' Analysis

ED IS BASED ON HARD WORK, IT IS NOT FOR SHORT-CUT

"The Comprehensive approach of ED has received a good feedback in prelims 2018, although it is mainly designed for mains and interview."

"ED is Prepared on the Bases of research & analysis of Daily News Papers, PIB, Reports, Government Webs, Debates on TV Channels & Other Online Sources."

"ED has Consistently the best record in CSE Mains. In 2018 Mains the record are:

GS Paper I: 09 Qs (115 Marks)

GS Paper II: 14 Qs (175 Marks)

GS Paper III: 13 Qs (165 Marks)

- ❖ Every Sunday Class on ED with Concept & framework-building
- ❖ Every Friday Writing Practice Test Based on Previous ED
- ❖ Every 15 Days Class on Prelims Oriented Current Affairs

RANK - 05 & 07 (CSE 2016)

AIR-59 & 74 (CSE 2017)

PT TEST SERIES 2019

A 720 DEGREE PT GUIDANCE PROGRAM

- FOR THE FIRST TIME INITIATIVE FOR PT TEST SERIES LIKE MAINS TEST SERIES
- IT IS TWO TIMES 360 DEGREE EVALUATION

THE FIRST 360 DEGREE

- GET ANALYSED YOUR PT TEST PERFORMANCE BY MENTORS AS WHERE ARE THE PROBLEMS?
 - AT CONCEPT LEVEL
 - AT KNOWLEDGE LEVEL
 - AT UNDERSTANDING LEVEL
- AT FACTUAL/SHARP KNOWLEDGE LEVEL
- AT ELIMINATION SKILLS LEVEL
- AT CONTEMPORARY/CURRENT DEVELOPMENTS LEVEL

FINAL PHASE

MOCK TESTS

GOAL...

THE PROGRAM CONSISTS OF

- INDIVIDUALISED MENTORING
- INSTITUTIONAL SUPPORT
 - 32 TESTS
- SPECIAL CLASSES ON GOVERNMENT'S SCHEMES/REPORTS
- NEED-BASED PT BASED CLASSES
 - CSAT CLASSES
- ONE YEAR CURRENT AFFAIRS
- CLASSES ON BUDGET, SURVEY AND INDIA

THE SECOND 360 DEGREE

- FOCUS ON HOW TO IMPROVE THE PROBLEMS IDENTIFIED AT FIRST PHASE
 - INDIVIDUALISED ATTENTION
 - STUDY-GUIDANCE: WHERE TO STUDY & HOW TO STUDY
- CLASS-ROOM GUIDANCE ON NEED BASED
 - RESOURCE SUPPORT FOR CONTEMPORARY & CURRENT DEVELOPMENTS.

STRATEGY CLASS
27th Oct.
